

MOUNTAIN CHATTER

And It's Tony In Second

As the cars raced into the finish line there was no mistaking who was behind the driver's seat of car #143 as it took a second place finish. Tony Esposito, along with co-driver Phil Barnes, in his bright blue 1993 Subaru Impreza rally car took second in the Open Light class of the Waste Management Susquehannock Trail Performance Rally.

In the Open class, victory went to driver Antoine L'Estage and co-driver Nathalie Richard from Quebec, who were driving a 2009 Mitsubishi Lancer. Second place was also a Mitsubishi driven by William Bacon and Peter Watt. The top two qualify for X Games invitations.

Open class rally hopefuls Dave Mirra and co-driver Martin Headland driving a 2010 Subaru Impreza went off the track on the same corner where two years ago Travis Pastrana rolled his car. Headland was treated at Soldiers and Sailors Memorial Hospital and released.

Ken Baker and co-driver Alex Gelsomino were also crowd favorites in the new Monster energy drink 2010 Ford Feista. Unfortunately, the team had to pull out in stage 10 due to transmission failure.

Rally favorite Pastrana was absent this year; he is currently in Australia shooting video for his MTV stunt show "Nitro Circus." However, Esposito and Barnes proved that sometimes being a hometown celebrity can be just as nice as worldwide fame.
